

Dear friends, dear colleagues,

It's with a great pleasure that I officially open the registrations for the next ARTAG midyear meeting in Paris Zoo (4th to 7th of April). As already said by Ivan in a previous message note that this midyear meeting is a joined reptiles and amphibians meeting.

Please find in attached files the following documents:

- the registration form
- the global program of the meeting
- accommodation information
- the field excursion description

IMPORTANT NOTE: for organization reasons the registrations are **open until the 8th of March** and it's really important that you respect this deadline to send me the registration forms.

If you want to give a talk during the meeting, please contact the chair and/or vice-chairs of the reptiles and amphibians TAGs.

Do not hesitate to contact me for any questions.

Looking forward to see many of you in Paris.

Best regards.

Olivier
